Stainless Steel Solutions

**Clean and safe powder
handling for your process.**

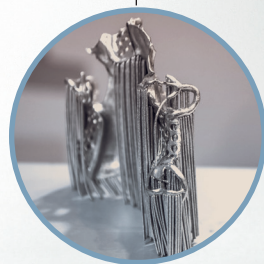

Interfaces

- Adapted interfaces to machine
- With shut-off valve

Airtight

- Sealed connections
- Gas admission

Stability

- for high density
- No deformation

Easy to integrate into your production processes - thanks to clever interface management.

Handling

Hopper and valves for dust-free filling

Mobility

Trolleys and racks for safe transportation

Storage

Drums, bottles and powder containers for storage and transportation

*UN approval for solids and liquids
