Stainless Steel Solutions

**Safe.
Sustainable.
Future-Ready.**

Safety and protection for people,
environment and products.

Benefits at a glance

- UN approval for liquid and solid substances
- Designed for demanding hygiene regulations and environmental conditions
- Storage and transportation under extreme conditions such as high pressure or high temperatures
- Used in process with liquids and hazardous substances such as acids, alkalis, high purity or toxic media

Perfectly prepared for particular hygiene regulations and environmental conditions.

Airtight

- 100% product protection
- protection against external influencers

Sustainability

- 100% recyclable
- Resource saving & versatile
- Durable corrosion resistant

Tight-head drums

Volumes from 30 to 220 liters, in different diameters.

UN approved for the transport of dangerous goods by road.

Cylindrical lidded drums

Standard lidded drums with UN rating for solids and liquids in various volumes and diameters.

Bottles and hopper cans

The alternative to glass bottles for use in laboratory areas.

The unbreakable stainless steel bottles. GMP and pharma compliant.
